Each lot of Bonded Maningseed is collected, processed, packaged and sealed under the careful supervision of trained foresters who can personally guarantee and identify the source from which this seed is collected.

The price is \$35.00 per pound, delivered by air, prepaid to any airport in the world. The supply is limited, so orders will be shipped in the order they are received by us -- as long as the supply of seed lasts. When ordering, please give only the stand number and pounds desired. Shipments can be made in September and October.
